Introduction

The **McHale FSS0** round baler which you have purchased has been developed through years of constant research and development. Given proper care and attention the **FSS0** will give years of reliable and dependable performance. However it is important that the operators manual is read and fully understood to achieve this, **before** the machine is operated. As part of this philosophy it is vital to use only **genuine McHale** replacement parts, as these are manufactured to the same high standard as the original machine. These may be obtained through your **McHale** dealer.

If any part of this manual is not fully understood please contact your **McHale** dealer who will be able to answer any questions or queries that you may have. It is important to quote the machine serial number when requiring spare parts or technical assistance. Space is provided below to record the machine details:

Serial number:	
Year of manufacture:	
Date of delivery:	

If you require further copies of this spare parts manual
please quote part number CLT00064.

Note: Due to a policy of continuous product development and improvement, *McHale Engineering Ltd.* reserve the right to alter machine specifications without prior notice.

Hydraulic System; Fitting:

Hydraulic System; Fitting:

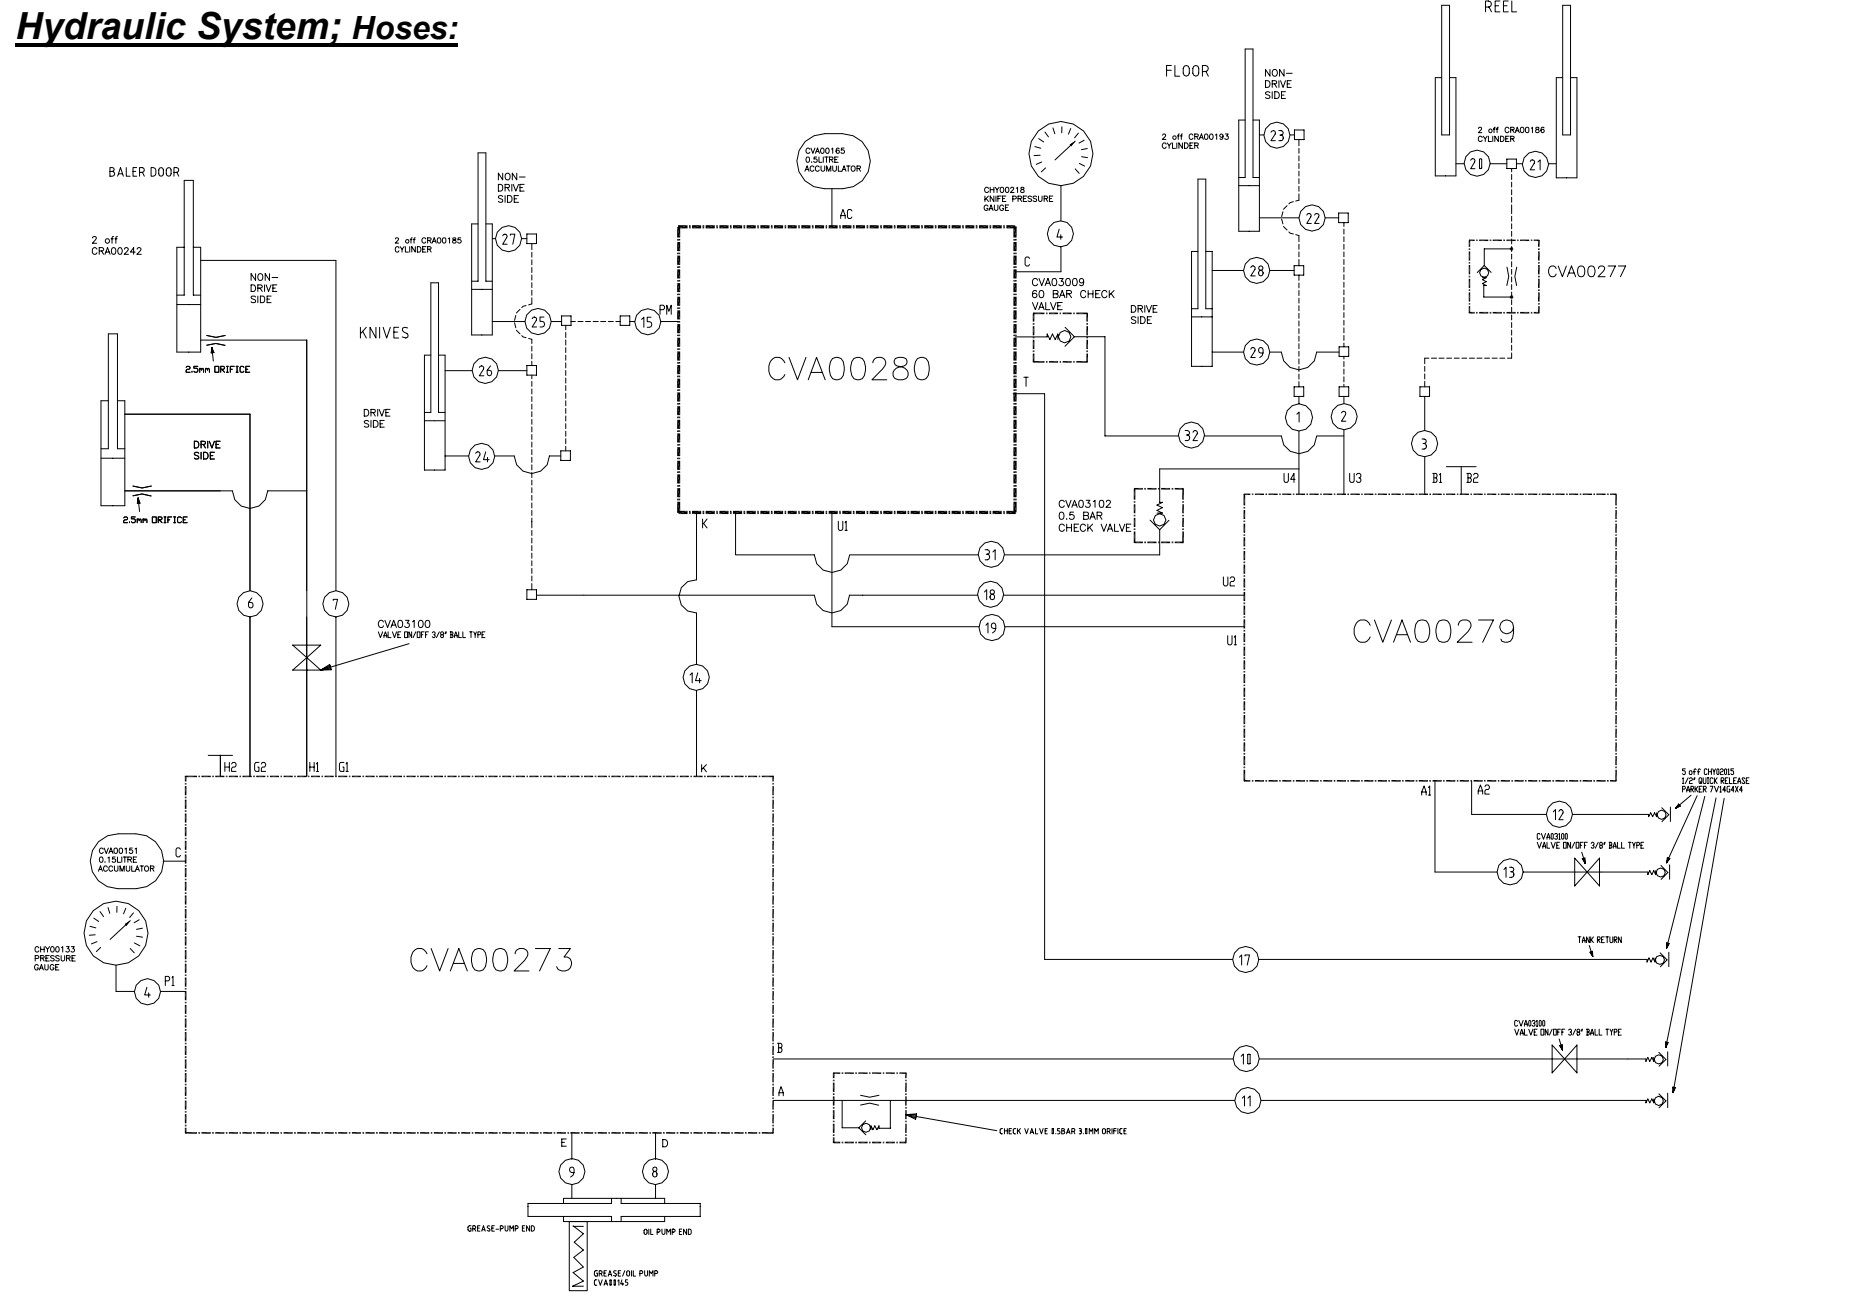

The diagram illustrates the hydraulic system for the McHale F550 Round Baler, showing the connections between the main pump unit (CVA00273) and various actuators and components.

Key Components and Connections:

- Main Pump Unit (CVA00273):** The central component, featuring ports P1, P2, K, K1, U1, U2, A, B, C, D, E, G1, G2, H1, H2.
- Accumulators:** CVA00151 (0.15LITRE) and CVA00165 (0.5LITRE) are connected to the system.
- Pressure Gauges:** CHY00133 (Pressure Gauge) and CHY00218 (Knife Pressure Gauge) are included.
- Check Valves:** CVA03009 (60BAR CHECK VALVE), CVA03102 (0.5 BAR CHECK VALVE), and CVA03100 (VALVE ON/OFF 3/8" BALL TYPE) are used for flow control.
- Actuators:** The system controls the Baler Door (2 off CRA00242), Knives (2 off CRA00185), Floor (2 off CRA00193), and Reel (2 off CRA00186).
- Grease/Oil Pump:** Located at the bottom, it feeds the system with grease/oil through ports 10 and 11.

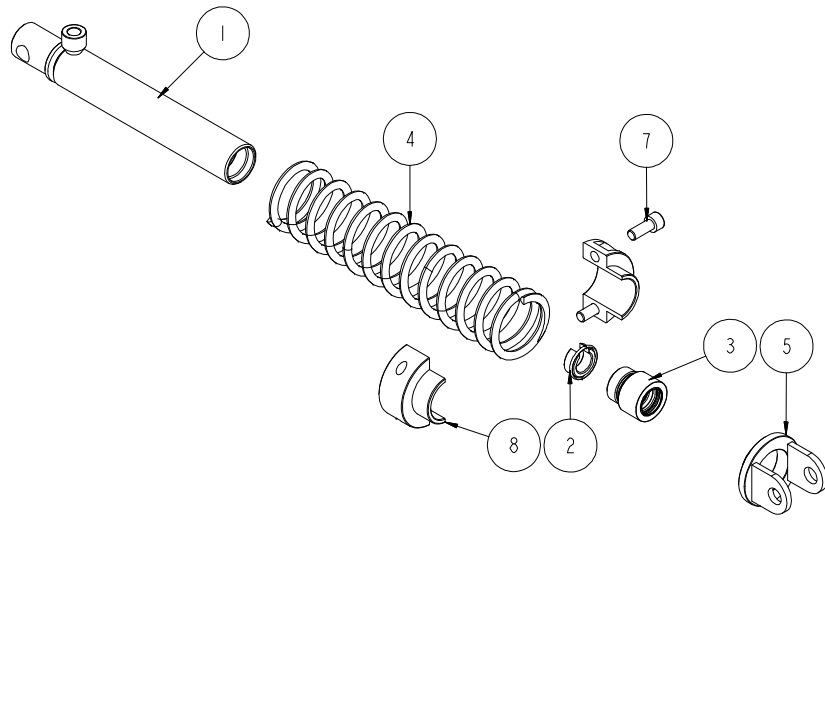

The diagram also indicates the 'DRIVE SIDE' and 'NON-DRIVE SIDE' for various components, ensuring correct assembly and operation.
